SUBJECT INDEX FOR VOLUME 27

accountability, 1461–1464

adolescents, mental health and the fear of war, 995–998

Africa, traditional and modern medical systems, 1125–1138

age and class gradients, and health in British youth, 291–296

Agent Orange, and litigation in U.S., 1071–1084

AIDS, 297–303
- and perceived stress, 569–578
- alcoholism as a risk factor, 1147–1152
- and public knowledge, 1295–1298

alcohol, and health beliefs, 1429–1432

alcoholism, as a risk factor in AIDS, 1147–1152

apartheid, and health, 661–745

artificial insemination, 377–383

Asian health care traditions, 411–567

Australia, and repetition strain injury (RSI), 645–649

ayurvedic medicine, 479–489
- and mental health in India, 471–477
- and jaundice in Nepal, 491–495

Bali, bereavement and loss, 451–460

Bhopal Disaster, and legal implications, 1105–1123

black youths, and perceived health status, 1207–1214

Brazil, oral rehydration therapy in, 25–38
- patterns of drug use in rural Bahia, 1415–1427

breast cancer, and factors in choice of surgery, 1257–1262

breast feeding, in Istanbul and Stockholm, 405–410
- and maternal health beliefs in Northern India, 461–469

Canada, occupational health and safety, 1189–1196
- socioeconomic and health status, 1317–1325

cancer, care, 159–166
- and the training of health professionals, 369–375
- post-surgical recovery, 385–392
- of the oesophagus, its epidemiology, 971–985

cardiac rehabilitation, 149–158

cardiovascular mortality, regional variation in Sweden, 911–917

Central America, diarrheal disease control project, 97–105

cervical screening, and non-attendance, 651–660

childbearing, in Korea, 497–504

child health, in Zimbabwe, 723–731
in the Philippines, 1183–1188

child mortality, in Nigeria, 607–614

child psychiatric disorders, and the single parent, 181–186

children's health beliefs, and medicine use, 345–352

China, and integration with western medicine, 521–529
health care system, 879–888

climate, diffused solar radiation and multiple sclerosis, 231–238

compliance, attendance for cervical screening 651–660
behaviour, 1299–1308

contraception, and psychiatric symptoms among Moslem women, 941–945

coping, and unemployment, 239–247

Cornell Medical Index, and mortality in Polynesia, 1433–1437

Costa Rica, gastrointestinal illness, 69–73

cultural models, of diarrheal illness, 5–16

definition of death, and organ transplanation in Japan, 339–343

depression, among unemployed Swedish women, 1349–1355

developing countries, and child health, 1357–1368

diarrheal disease, in Kenya, 1277–1286

diarrheal illness, 1–18, 53–67, 1277–1286

doctor/patient relationships, 217–221, 895–900
among cancer patients, 1139–1145
1299–1380

drugs, and physician selection, 1381–1386

drug-taking, behaviour, 277–285

drug use, in two Brazilian villages, 1415–1427

Egypt, bereavement and loss, 451–460

equality, in health care, 703–716

employment, and health in Zimbabwe, 733–741

environmental disease, and the U.S. courts, 1019–1029, 1031–1041

epidemiology, of cancer of the oesophagus, 971–985

essential drug requirements, 955–970

ethnomedical models, of diarrheal disease in Pakistan, 53–67

ethnomedicine, and mental health in Trinidad, 129–148
in Thailand, 437–443

Finland, and medical sociology, 223–229
utilisation of health services, 1263–1268

Gabon, calculations of essential drug requirements, 955–970

gender differences, and smoking, 1269–1275

general practice, and perceptions of the doctor, 579–586
and doctor/patient communications, 895–900
1401–1409

Haiti, and oral rehydration therapy, 87–96

healing techniques, in Southeast Asia, 747–877

health, and race relations, 661–745
and psychological factors, 1447–1459

health aesthetics, in Malaysia, 811–818

health belief models, drug-taking compliance, 277–285

health beliefs, and childhood behaviour, 345–352
and diarrheal treatment in Kenya, 1277–1286
and attitudes to AIDS, 1295–1298
and practice, 1357–1368
and alcohol, 1429–1432

health care, in China, 879–888
and lay evaluation, 927–933
and hospital admission policy, 947–954
and psychological trauma, 1097–1103
in Africa, 1125–1138
and child health in Finland, 1263–1268

health care patterns, and pharmacy in India, 563–567

health care traditions, in Asia, 411–567

health education, and pre-term births, 1439–1446

health indicators, and social patterning, 327–337

health inequalities, 291–296

health information system, drug requirements in the Gabon, 955–970

health maintenance, organisations in the U.S.A. and Britain, 305–320

health policy, in Zimbabwe, 1131–1138
in South Africa, 1153–1170

health professionals, and the terminally ill, 369–375

health service privatisation, in South Africa, 703–716

health services, in Nigeria, 1223–1235

health stages, and health in an urban black population, 1207–1214

health status, 269–275
and self perception of disability in French population, 1337–1342

health surveys, in developing countries, 359–368

heart disease, psychological consequences, 149–158
and self-assessment, 597–605
in Polynesia, 1433–1437

Hindu medicine, 197–215

Honduras, diarrheal control programme, 17–23

hospital admission policy, and risk factors, 947–954

hospital closure, and utilization patterns, 255–262
and organisational theory, 1287–1294

hysterectomy, and variation in surgical rates, 987–994

illness reporting, and psychological distress, 1215–1221

immunisation, progress in Indonesia, 1237–1245

India, childhood diarrhea in the rural north, 75–85
Ayurvedic medicine in the Punjab, 197–215
the semiotics of ritual health, 417–424
breast feeding in the north, 461–469
and humoral concepts of mental illness, 471–477
pharmaceuticals and health policy, 563–567

Indonesia, magic and medicine in, 425–436
and immunisation acceptance, 1237–1245

inequality and health, 119–127

infant, and child mortality in developing countries, 1357–1368

iodine deficiency, and biocultural beliefs, 587–596

insurance, and industrial risk, 1085–1095

Italy, psychiatric reform, 1327–1335

Japan, organ transplants, 339–343
and pollution related health damage compensation, 1043–1052, 1053–1059

justice, and the problem of AIDS, 297–303

Kenya, and health beliefs in diarrheal illness, 1277–1286

Korea, and its shamans, 445–450
childbearing in, 497–504

legal aspects, of pollution, 1105–1112

legal issues, among pollution victims, 1061–1070
1071–1084

life events, and stress, 999–1002
and their predictive value, 1337–1342
and utilisation of mental health services, 1393–1400

life expectancy, without disability in the U.K., 321–326

life style, sport and health, 1309–1316

magic and medicine, in Indonesia, 425–436

marriage, and psychological consequences of cardiac arrest, 149–158

maternal, and child health, in Kenya, 1277–1286
education and child health, 1357–1368

medical anthropologists, and accountability, 1461–1464

medical care, 637–644
and medical trends in the Netherlands, 889–894
and patient satisfaction, 935–939

medical perceptions, and general practice, 579–586

medical pluralism, in rural North Yemen, 515–520

medical sociology, its development in Finland, 223–229

medical students, and psychiatric disorders in Belgrade, 187–190

medical systems, 1171–1182

mental health, and ethnomedicine in Trinidad, 129–148
and unemployment, 239–247
in India, 471–477

mental health policies, changed strategies in Italy, 1327–1335

mortality, and living conditions, 901–910

mortality and marriage, 615–622

mortality statistics, and occupation, 615–622

mortality trends, in the Netherlands, 889–894

Mozambique, destabilisation and health, 717–722

multiple sclerosis, climate and diffused solar radiation, 231–238

myocardial infarction, and self-assessment of health, 597–605
and Type A behaviour, 623–626

Nepal, ayurvedic treatment in jaundice, 491–495
and traditional Sherpa medicine, 505–513
medical pluralism, 919–925

Netherlands, mortality trends and medical care, 889–894

Nigeria, diarrhea management programme, 107–118
child mortality, 607–614
and health service inequalities, 1223–1235

Nottingham Health Profile, 1411–1414

nutrition, and agricultural development in Zambia, 743–745

nutrition education, and diarrheal management programmes, 39–52

occupation, and mortality rates, 615–622

occupational health, in South Africa, 691–702
and information in Canada, 1189–1196

oral rehydration therapy, 25–38
in Sri Lanka, 39–52
in rural Pakistan, 53–67
in Costa Rica, 69–73
and childhood diarrhea in rural North India, 75–85
among Haitian mothers, 87–96

organisational theory, and hospital closures, 1287–1294

organ transplantation, in Japan, 339–343

Pakistan, maternal concepts of childhood diaarrhea, 53–67

parental influence, and children's health beliefs, 345–352

patient information, and the Bhopal disaster, 1113–1123
and cancer, 1139–1145

patient satisfaction, 935–939

perceived health, and its measurements, 1411–1414

Peru, diarrhea management programme, 107–118

pharmaceutical, and health policy in India, 563–567

Philippines, and child morbidity, 1183–1188

physicians, factors in drug prescription, 1381–1386

plural medicine, in Sri Lanka, 531–544

pollution, and health, 1011–1123
and social policy, 1011–1018
and health damage compensation in Japan, 1043–1052

Polynesia, patterns of cardiovascular disease, 1433–1437

poverty and disease, 119–127

premature birth, 1439–1446

pre-natal care, 167–172

primary health care, 17–23
and diarrhea management education, 107–118
self medication in Riyadh, 287–289
the holistic approach, 1401–1409

private medicine, and health care in South Africa, 1153–1170

psychiatric disorders, among medical students in Belgrade, 187–190

psychiatric patients, and commitment laws in the U.S., 1247–1256

psychiatric services, in Italy, 1327–1335

psychiatric symptoms, and contraception among Moslem women, 941–945

psychiatry, in Southeast Asia, 553–561

psychological distress, and care seeking, 1215–1221

psychological factors, in immunisation programmes, 1237–1245

psychotropic drug use, in a Swedish community, 263–267

race relations, and health, 661–745

rehabilitation, after cancer surgery, 358–392

religion, and health care utilisation, 1369–1379

rheumatoid arthritis, and social relationships, 399–403

ritual, religion and health, 1197–1206

rural health services, and child fostering in Sierra Leone, 627–636

Rwanda, its popular medicine, 1343–1348

safety, and occupational health in South Africa, 691–702

Saudi Arabia, self medication, 287–289

secrecy, and artifical insemination, 377–383

self-assessment, and myocardial infarction, 597–605

Senegal, and traditional medicine, 353–357

Sierra Leone, child fostering and feeding practices, 627–636

single parents, and child mental health, 181–186

smoking, and sex differences among different cultures, 1269–1275
cessation programme, 1387–1392

socialisation processes, in health, 1171–1182

social patterning, and health indicators, 327–337

social policy, and pollution-related disease, 1011–1018

social support, and heart attacks, 149–158
and recovery after cancer surgery, 358–392
and psychological well-being in rheumatoid arthritis, 399–403
and services utilisation, 1393–1400

socioeconomic differential, and child mortality in a Nigerian city, 607–614

socioeconomic status, and health in Canada, 1317–1325

South Africa, and private medicine, 1153–1170

Southeast Asia, techniques of healing, 747–877

Southern Africa, apartheid and health, 683–689

spiritual healing, in the Baltimore area, 1197–1206

sport, and health, 1309–1316

Sri Lanka, perceptions of diarrheal illness, 39–52
and medical pluralism, 479–489
and plural medicine, 531–544
illness behaviour, 545–552

standard of living, and mortality, 901–910

stress, and cancer care among health professionals, 159–166
and unemployment, 239–247
and HIV, 569–578
and social resources, 999–1002
and health, 1447–1459

sudden infant death syndrome, 393–397

surgery, and breast cancer, 1257–1262

survey design, and health in developing countries, 359–368

Sweden, psychotropic drug use, 263–267
mothers' attitudes towards breast feeding, 405–410
variations in cardiovascular mortality, 911–917
depression among unemployed women, 1349–1355

Thailand, supernatural practitioners, 437–443

traditional conceptions, of health and sickness, 1171–1182

traditional medicine, and oral rehydration therapy in Northeast Brazil, 25–38
and gastrointestinal illness in Costa Rica, 69–73
in Senegal, 353–357
among Nepalese Sherpas, 505–513
and western medicine in China, 521–529
in Southeast Asia, 757–877
in Nepal, 919–925
and collaborative programmes in Africa, 1125–1130
in Rwanda, 1343–1348

Trinidad, mental health and local medicine, 129–148

tuberculosis, in the Western Cape of South Africa, 683–689

Turkey, mothers' attitudes towards breast feeding, 405–410

Type A, behaviour, 623–626

unemployment, and psychiatric distress, 239–247
and mortality in Sweden, 911–917

unintended pregnancies, 249–254

United Kingdom, transport provision for the elderly, 173–180
and health inequalities, 291–296
and the question of health maintenance organisations, 305–320
the expectation of life without disability, 321–326

upper limb pain, epidemic in Australia, 645–649

U.S.A., hospital closures and utilization patterns, 255–262
health maintenance organisations, 305–320
psychiatric commitment laws, 1247–1256

women's health, ritual healing in North India, 417–424
contraception and sociocultural beliefs among Moslem women, 941–945
and hysterectomy in the U.K., 987–994
unemployment and depression, 1349–1355

Yemen, medical pluralism in, 515–520

Yugoslavia, psychiatric disorders among medical students, 187–190

Zambia, agricultural development and health, 743–745

Zimbabwe, the economy of child health, 723–731
labour insecurity and health, 733–741
its health care system, 1131–1138
